Dear Sir:

In response to the Restriction Requirement mailed December 13, 2004, Applicants timely provide the following election.

Applicant's representative, Brian C. Whipps, conducted a telephone conference with Examiner Manuel Mendez on January 7, 2005. During that telephone conference, the parties discussed that original claims 1-29 had been cancelled with a preliminary amendment. Original claims 1-29 were the subject of the restriction requirement made by the Examiner. The Examiner suggested that the applicant propose election of the preliminary amendment claims.

Thus, Applicants propose the following:

Claims 30-37 are directed to a cannula, claims 38-45 are directed to a cannula in combination with a guidewire, and claims 36-49 are directed to a catheter for use in combination with an

endoscope and a guidewire. As suggested by the Examiner, Applicants propose that claims 30-45 directed to a cannula and to a cannula in combination with a guidewire be a first invention and the last claim set 46-49 directed to a catheter in use in combination with an endoscope and guidewire be a second invention.

As such, Applicants hereby elect claims 30-45, the first invention, without traverse.

Respectfully Submitted,

Mark Agro et al.

By their Attorney,
